DETAILED ACTION

1. This office action is in response to the Response to Quayle Action filed December 19, 2003.

Accordingly, claims 1, 3-6, 8-14, 16 and 18-40 were cancelled. Currently, claims 2, 7, 15 and 17 are pending in this application.

Allowable Subject Matter

2. Claims 2, 7, 15 and 17 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record fairly suggests or shows all of the limitations as claimed. Specifically,

Re claim 2, none of the prior art of record discloses, in combination with other limitations as claimed, a liquid crystal device, comprising a second electrode having an opening, wherein a first electrode and an active element being connected through the opening of said second electrode.

The most relevant reference, USPN 6,166,792 of Miyawaki et al., fails to disclose or suggest a second electrode (reflective electrode) having an opening where a first electrode and an active element are connected together.

As shown in Fig. 1, the reference of Miyawaki et al. discloses a reflective layer 7 having an opening where a pixel electrode 12 and an active element are connected together; however, the reflective layer is not an electrode and, as shown in Fig. 13, the electric field generated between the pixel electrode 12 and the common electrode 15 is perpendicular to the surface of the substrate 1.

Art Unit: 2871

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
